# NEWS RELEASE

FOR IMMEDIATE RELEASE

## KELSO TECHNOLOGIES AT RECENT AAR MEETING

WEDNESDAY, APRIL 25, 2007 - VANCOUVER, BC, CANADA – **Kelso Technologies Inc. (TSXV:KLS) (Pink Sheets:KEOSF), developer of the unique JS75 pressure relief valve, is pleased to report that it made a very significant step forward towards its goal of expanding sales.**

On April 16 and 17, 2007, Kelso met in Houston, Texas with the Transportation Products Group of Piping & Equipment, Inc. ([pipingequipment.com](http://pipingequipment.com)) and discussed the terms of a working relationship with this significant, railway products supplier.

Piping & Equipment, Inc. (P&E) has warehouses in Alabama, Florida, Louisiana and Texas. P&E is one of the United States' most respected industrial pipe, valve and fitting distributors. Its customer base includes Fortune 500 companies, contractors and manufacturers in a variety of fields. The working relationship enables P&E to represent and sell Kelso's pressure relief valve products to its large customer base on a non-exclusive basis.

During meetings coinciding with the April 17-19 Association of American Railroads (AAR) Tank Car Committee meeting held in Galveston, Texas, Kelso met with a representative of a Mexico-based group to further discussions regarding the Latin America market and the opportunities that exist there for Kelso's technology.
